Open eLearning Courses 2021

eLearning Courses
Our eLearning sessions are live 90 minute training sessions that allow you to view the session online, listen to the presenter and provide a chance to learn without having to travel.

The eLearning sessions are interactive training and include polling, question & answer sessions to allow full participation between the audience and the presenter as well as short assessments to assess knowledge.

Open eLearning Sessions
This bundle is designed to help get your new starters up and running with ProVal or Sequel or a refresher for those already using the system. From creating appraisals, managing projects through to Cashflowing and reporting, these sessions will help equip your staff with the sufficient level needed for using the software. All of our sessions from the 'open eLearning' range are public and are open to any SDS customer and will run periodically.

End User:
